

Remarks

Claims 1-20 are pending in the instant application. Applicants have amended claims 1-6 and 8-19 to more fully conform with U.S. practice and to delete multiple dependencies. Applicants have cancelled claim 20, without prejudice.

The specification has been amended to insert a cross reference to the related priority applications and to include the changes made on the amended sheets filed and attached to the International Preliminary Examination Report for international application number PCT/GB2003/02983, of which the instant application is the national phase filing under 35 U.S.C. § 371. Applicants also respectfully request that the attached abstract be added to the specification on a separate sheet as required.

Applicants respectfully assert that all amendments are fairly based on the specification, and respectfully request their entry. Applicants believe that the claims, as amended, are in allowable form and earnestly solicited the allowance of claims 1-19.

Respectfully submitted,
